

LA Premiere Screening

The Economics of Happiness

March 31, 2011 – 7:00-9:30pm

Woodbury University

The Economics of Happiness “describes a world moving simultaneously in two opposing directions: while government and Big Business push for a globalized economy based on high technology and increased trade, people all over the world are working from the grassroots to nurture smaller scale, ecological, *local* economies. A movement is growing to re-create more just and sustainable communities and re-invent economies based on a new paradigm--an *economics of happiness*.”

SPEAKERS/PANEL BIOS

Hollis Doherty

Screenwriter, *The Miracle in Woergl*
Unterguggenberger Institute

Hollis Doherty is a writer, actress, and currency activist. A lifelong passion for protecting the Earth's natural resources led her to a Biology degree at the University of Colorado. When she recently discovered the true story of the currency experiment in Woergl, Austria, which happened during the Great Depression, she flew there to research and ultimately write a screenplay, "The

Miracle in Woergl", currently in pre-production. She believes that our sustainability problems are a systemic result of a faulty monetary mechanism, and that reorganizing the tools of human exchange will ultimately provide the solutions we need from a causal, and not result oriented basis.

Gregory Wendt, CFP®

Vice President Sustainable and Responsible Investing EP Wealth Advisors, Inc.
Co - Founder Green Business Networking
Founder - Green Economy Think Tank Day"

Gregory Wendt is Vice President of Sustainable and Responsible Investing for EP Wealth Advisors (www.epwealth.com). Greg advises clients who want to align their wealth through investments that reflect their priorities and concerns for a better world. Greg is one of the nation's leading experts in Sustainable and Responsible Investing. He began his career as a financial advisor in 1991 and worked with Smith Barney, Paine Webber and Prudential Securities prior to joining Enright Premier Wealth Advisors, Inc. in 2002. He is frequently profiled or quoted as an expert in the media including "Living with Ed" Television Show on Home and Garden Television, Business Ethics magazine, Daily Variety, Financial Planning magazine and Yogi Times magazine. Greg speaks regularly at conferences on the matters of new paradigms in economics, sustainable and responsible investing, new consciousness around wealth and related matters.

Mr. Wendt is the founder/visionary behind Green Economy Think Tank Day, Green Economy Think Tank Day (www.greeneconomythinktank.org) an annual conference for LA Region's sustainability leaders to evolve solutions and actions for LA's Green Economy. He is also the co-founder of non-profit Green Business Networking (www.greenbusinessnetworking.org) a community of nearly 4,000 individuals in the LA Region whose mission is to connect business owners and decision makers of socially and environmentally conscious businesses by providing a space and time for connecting, deal making and networking.

A native of Southern California, Greg grew up in Palos Verdes Estates and has lived in Santa Monica since 1983. In his spare time Greg enjoys swimming surfing, gourmet cooking, reading, meditation, hiking and hosting wonderful events for his family and friends.

Deborah Eden Tull

Sustainability coach, meditation teacher, author
323-935-1214
creativegreen@hotmail.com
www.deborahedentull.com

Deborah Eden Tull is a sustainability coach and meditation teacher who has been traveling to, living in, or teaching about sustainable communities internationally for the last 18 years, including seven years as a monk at the Zen Monastery Peace Center in Northern California. She has been an organic gardener and farmer for many years, including at Green Gulch Farm in Marin County, California, at Arcosanti in the Arizona desert, at the Zen Monastery Peace Center, and in urban gardens in the San Francisco Bay area and in Los Angeles. Certified in Permaculture Design, Bio-Intensive Organic Gardening, and Compost Education, she offers workshops throughout Los Angeles County and beyond, most recently at the Omega Institute in New York. Her approach to sustainable living is a unique combination of peace and environmentalism that emphasizes the interconnection between personal and planetary well-being. She is the author of *The Natural Kitchen: Your Guide to the Sustainable Food Revolution* (Process Media), which will be available in September 2010.

Deborah Eden Tull has been teaching Zen meditation and facilitating spiritual workshops for the past 10 years. She has been a meditator for 17 years and a student of Zen for 13. Her current passion is to practice and teach the integration of mindful living into every aspect of urban life. Her teaching style is grounded in compassionate awareness and an unwavering commitment to personal transformation.
